Amendments to the Claims

- 1-28. (Canceled)
- 29. (Currently amended) A method of treating cardiac hypertrophy-in a patient comprising administering to the a patient diagnosed with PGF_{2α}-associated cardiac hypertrophy a therapeutically effective amount of interferon gamma (IFN-γ), wherein said cardiac hypertrophy is selected from the group consisting of post myocardial infarction hypertrophy, hypertrophy associated with hypertension, aortic stenosis, valvular regurgitation, cardiac shunt and congestive heart failure.
- 30. (Previously presented) The method of claim 29 wherein said patient is human.
 - 31. (Canceled)
- 32. (Previously presented) The method of claim 30 wherein said IFN- γ is rhIFN- γ -1b.
 - 33-39 (Canceled)
- 40. (Previously presented) The method of claim 30 wherein said IFN-γ is administered in combination with at least one further therapeutic agent used for the treatment of cardiac hypertrophy or a heart disease resulting in cardiac hypertrophy.
- 41. (Previously presented) The method of claim 40 wherein said further therapeutic agent is selected from the group consisting of β -adrenergic-blocking agents, verapamil, diffedipine, and diltiazem.
- 42. (Currently amended) The method of claim 41 wherein said β -adrenergic-blocking agent is a carvedilol, propranolol, metaprolol, timolol, exprenolol or tertatolol.

- 43. (Previously presented) The method of claim 40 wherein said IFN- γ is administered in combination with an antihypertensive drug.
- 44. (Previously presented) The method of claim 40 wherein said IFN-γ is administered with an ACE-inhibitor.
- 45. (Previously presented) The method of claim 40 wherein said IFN- γ is administered with an endothelin receptor antagonist.
- 46. (Previously presented) The method of claim 40 wherein said IFN- γ is administered following the administration of a thrombolytic agent.
- 47. (Previously presented) The method of claim 46 wherein said thrombolytic agent is recombinant human tissue plasminogen activator (rht-PA).
- 48. (Previously presented) The method of claim 40 wherein said IFN-γ is administered following primary angioplasty for the treatment of acute myocardial infarction.

49-59. (Canceled)
